

The Blue Ribbon **Commission on Transportation**

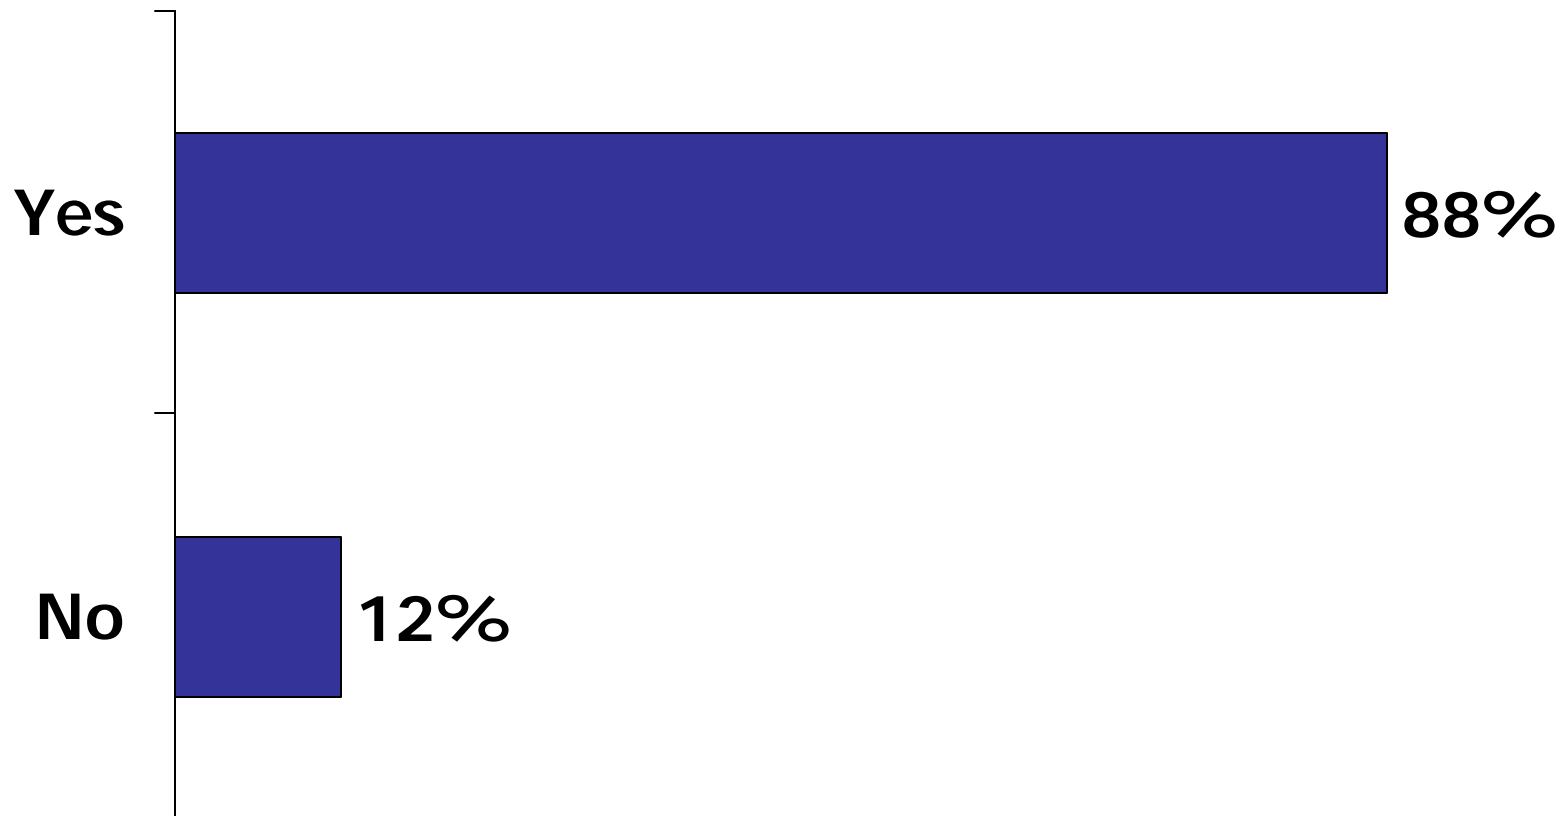

KOMO/KXLY/KIMA/KEPR Web Survey Results

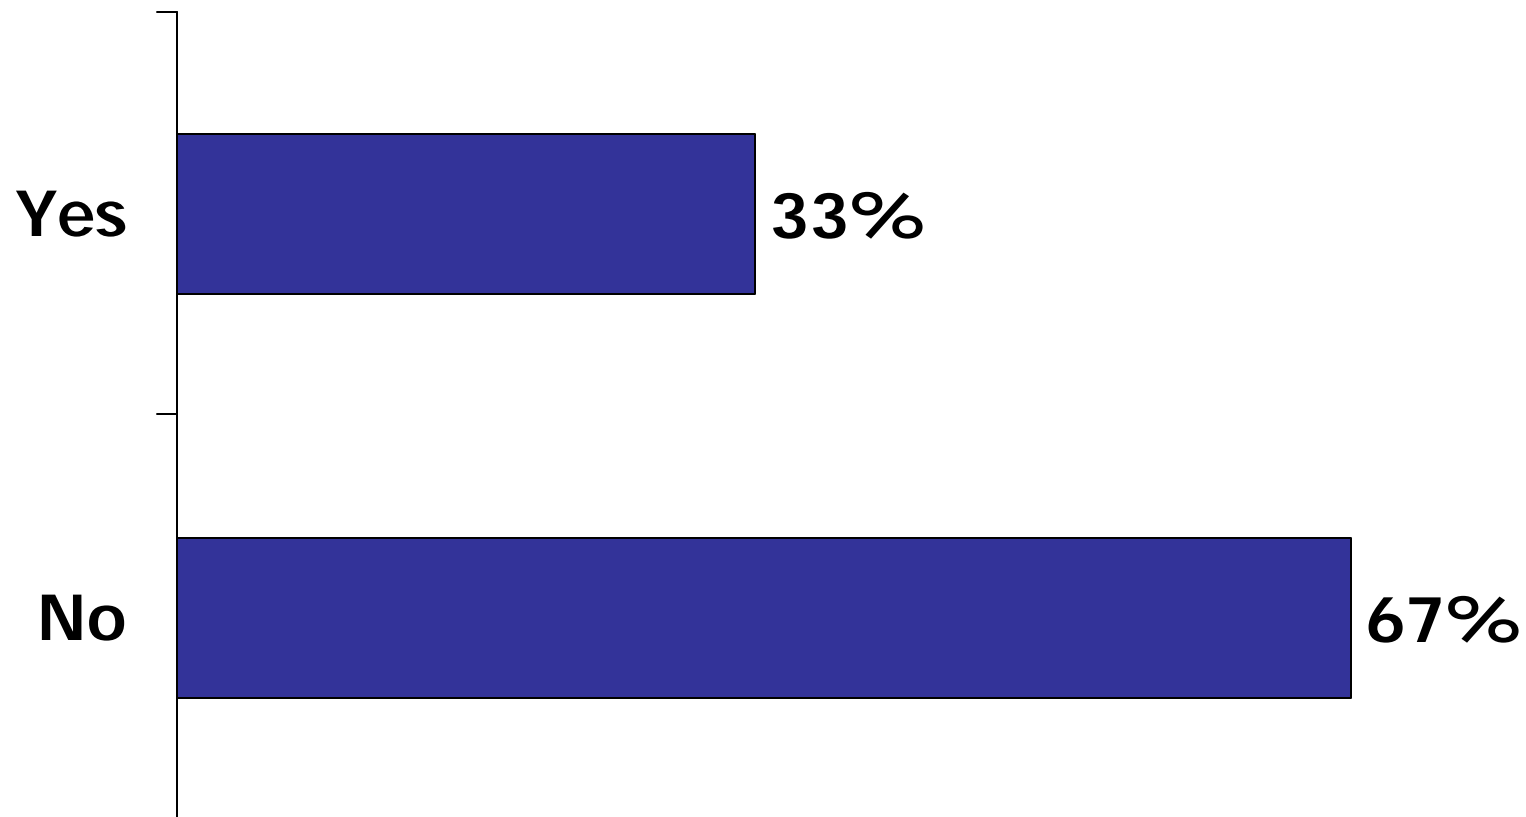

2,485 Total Responses

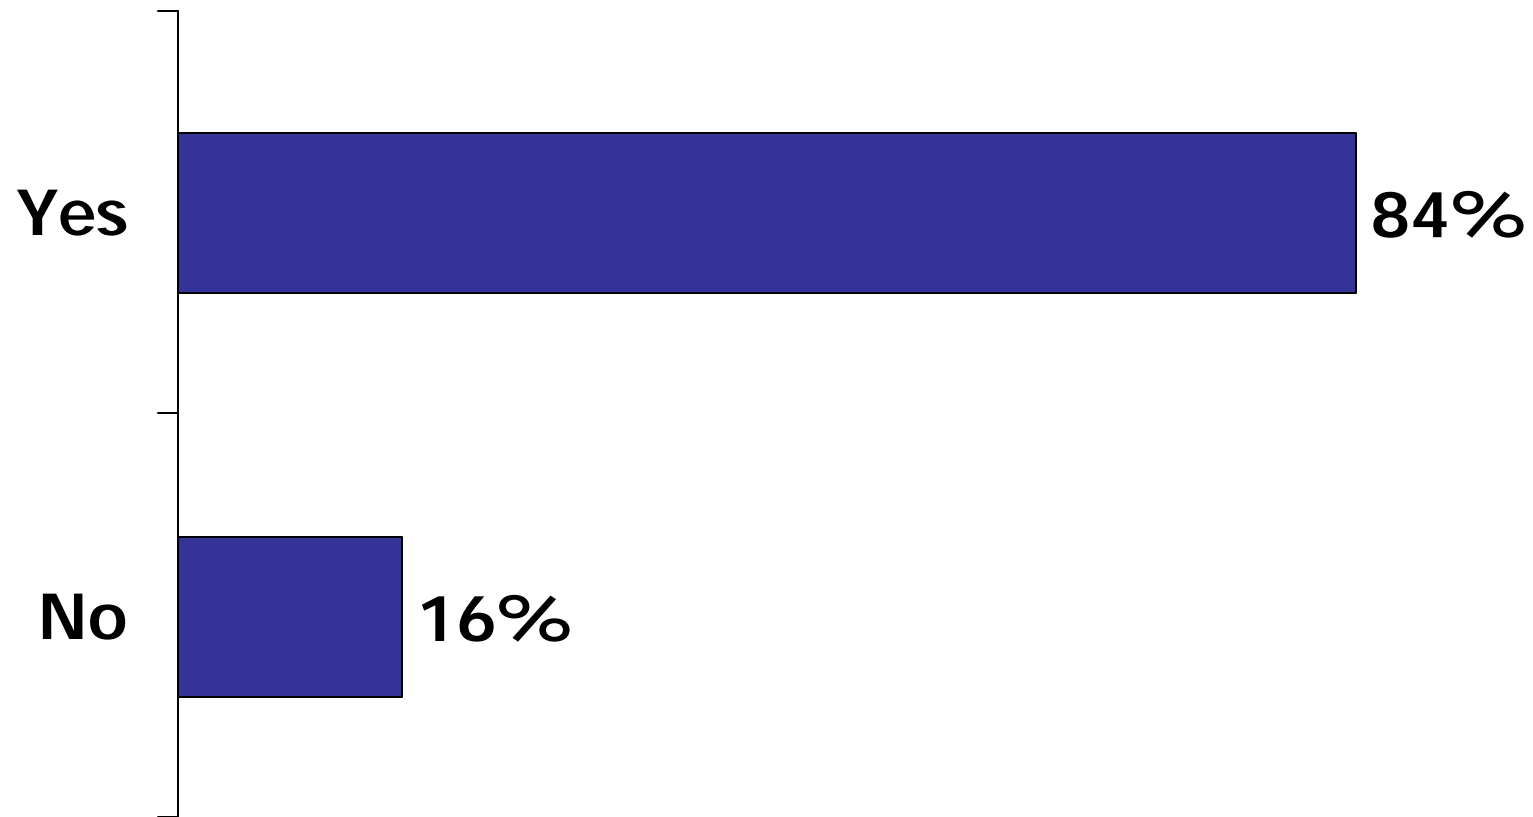

“Fixing the state’s transportation problems should be one of the legislature’s highest priorities when it meets in January”

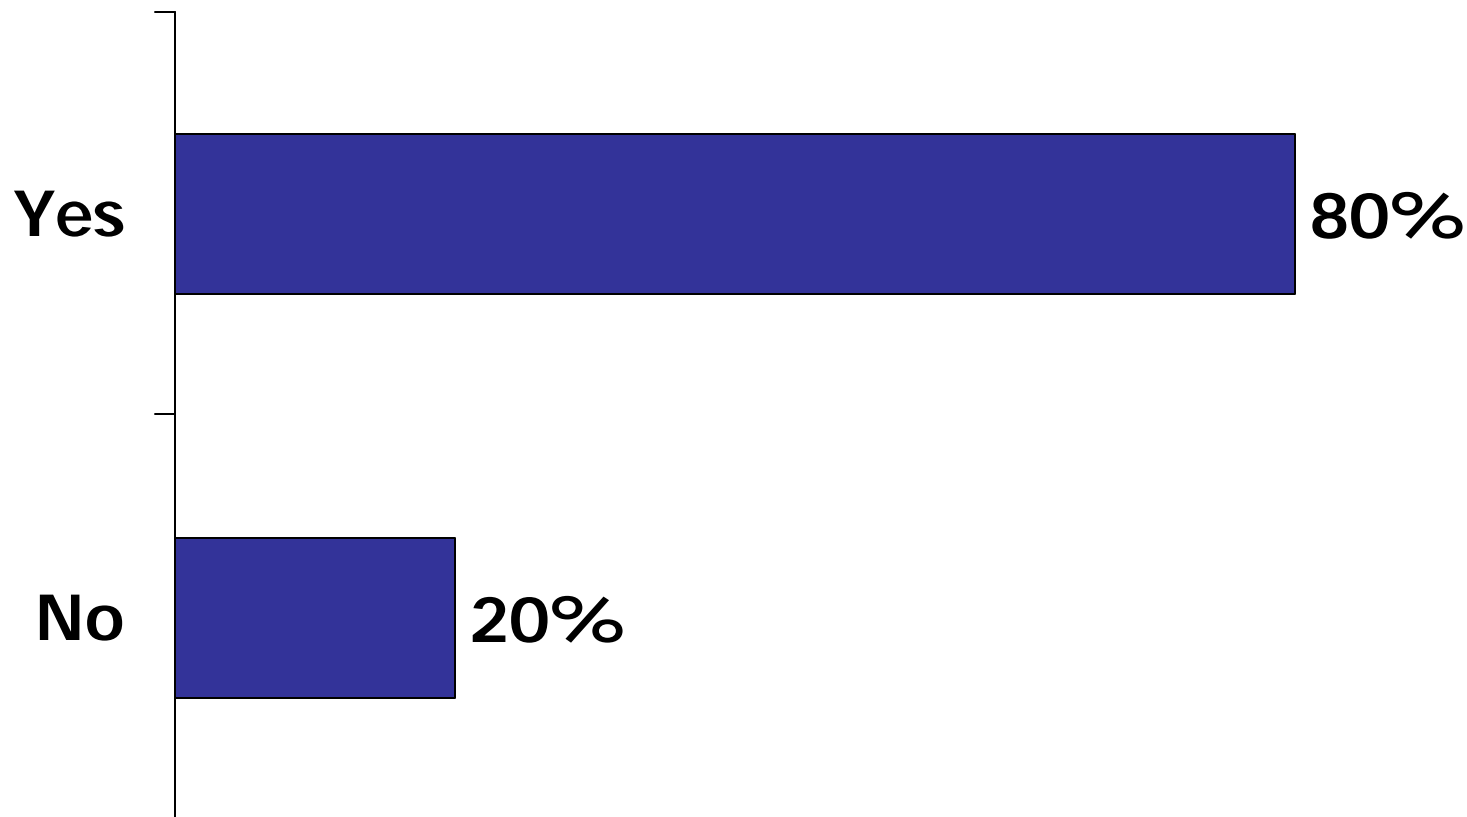

“Transportation should be a higher priority
than other issues like education
and health care”

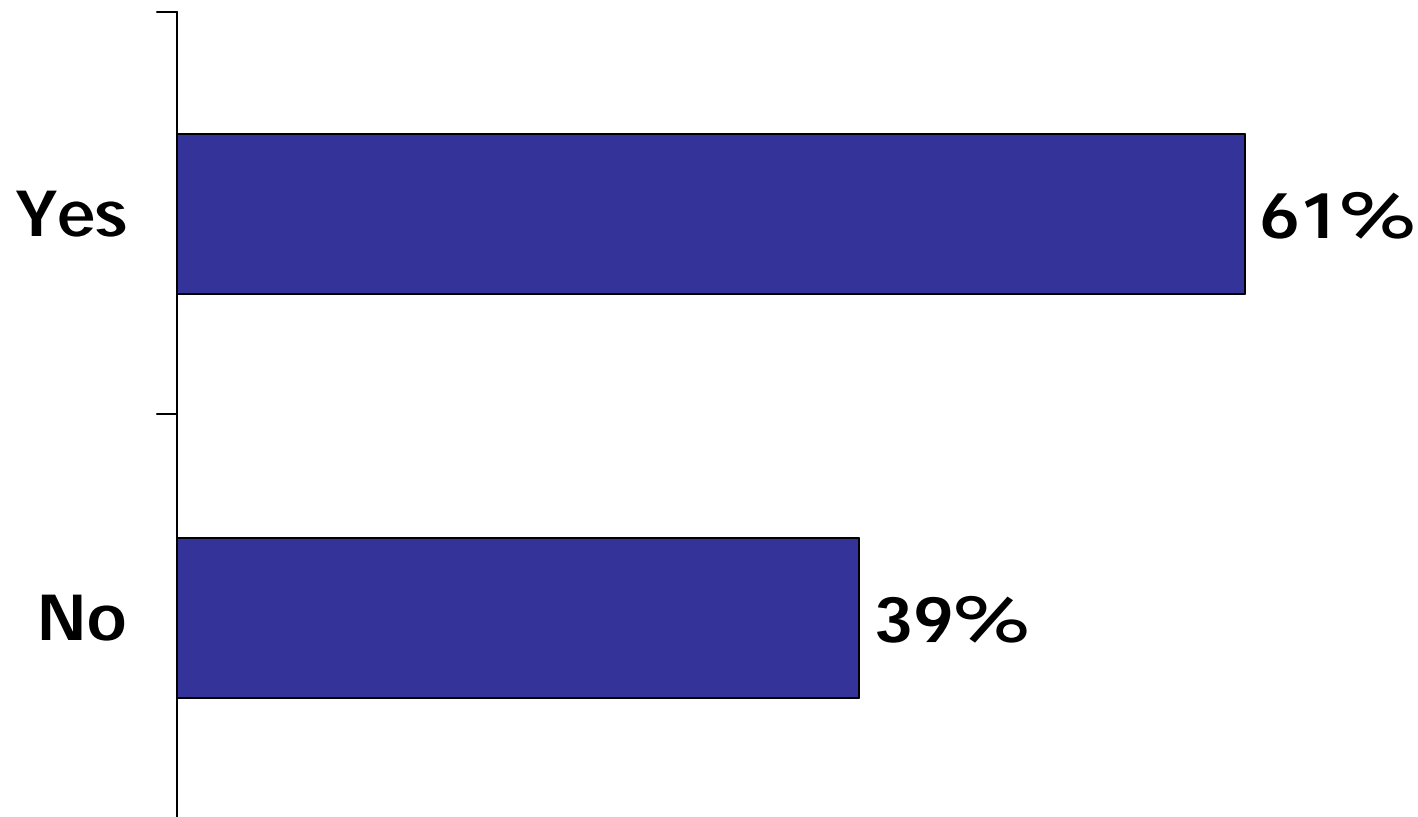

“Traffic problems are making Washington
a less desirable place to live”

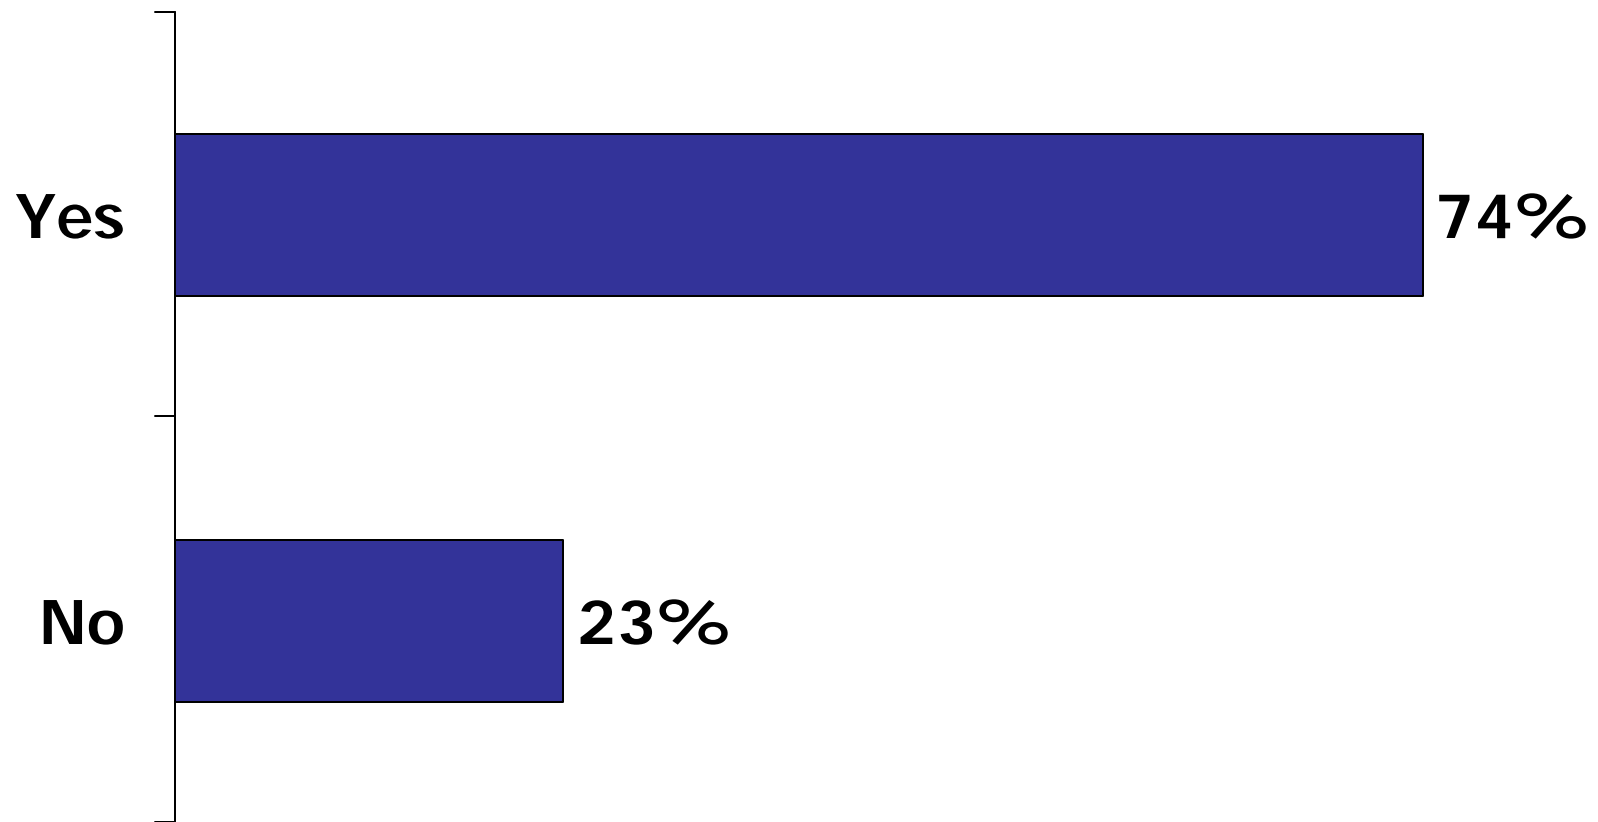

“The most congested areas should get the most attention first because congestion in urban areas affects all of us”

"Traffic is a big problem
for me personally"

Did you consider transportation issues
when deciding which candidates
to support this year?

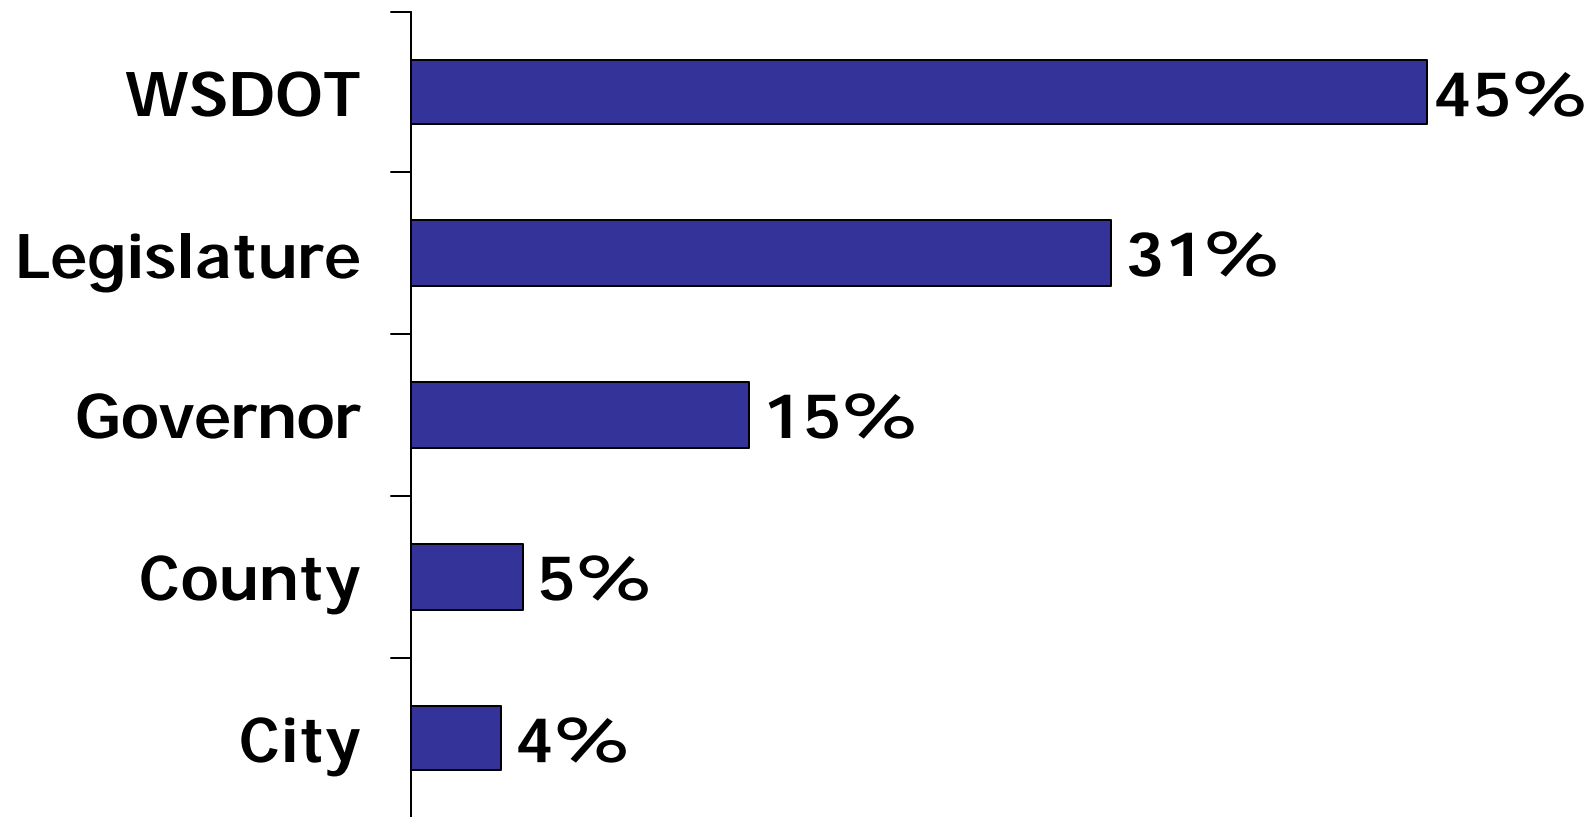

Did you consider transportation issues
when deciding which initiatives
to support this year?

What are your transportation priorities?

1. Expanding public transit services
 2. Fixing the worst traffic bottlenecks
 3. Expanding existing roads and bridges
 4. Building new roads and bridges
 5. Fixing potholes and keeping bridges safe

What do you want the Governor and Legislature to do with transportation when the legislative session starts in January?

Would you be willing to pay more taxes if it meant transportation improvements would be made sooner?

Would you support additional local taxes and fees if they were spent on fixing your local problems?

Would you support raising state taxes to ensure that less populated areas receive enough funding to help maintain the transportation system that connects our state?
